## Lazy Leaks

389

Someone at a company was supposedly using an unsecured communication channel. A dump of company communications was created to find any sensitive info leaks. See if you can find anything suspicious or concerning.

```
1 Someone at a company was supposedly using an unsecured communication
   channel. A dump of company communications was created to find any
   sensitive info leaks. See if you can find anything suspicious or
   concerning.
```

### You Get a String! And You Get a String!

Downloading the `Lazy_Leaks.pcapng` file searched the file for strings then grepped for flag in the string.

```
1 $ strings Lazy_Leaks.pcapng | grep flag
2 1)flag{T00_L@ZY_4_$3CUR1TY}
```

### Victory

Submit the flag and claim the points:

**flag{T00\_L@ZY\_4\_\$3CUR1TY}**
